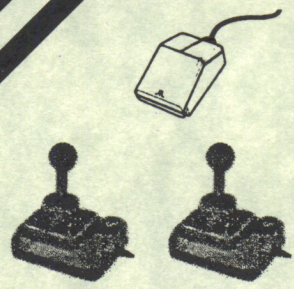
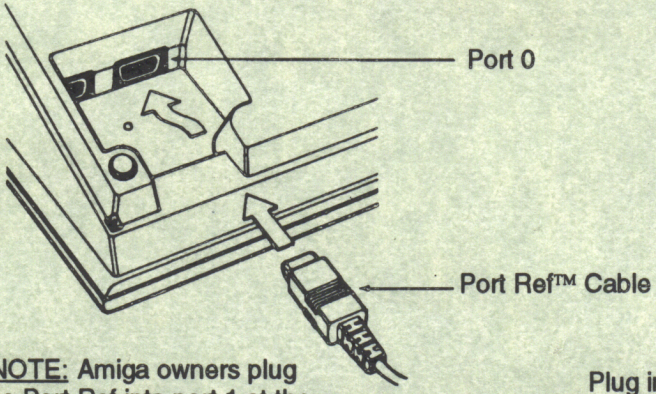
Port Ref™



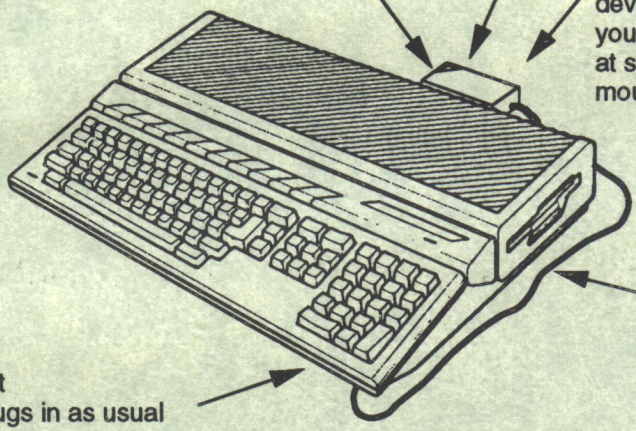
- Electronic Port Switcher for Atari ST/STE/TT and Commodore Amiga
- Use 2 joysticks and the mouse with your computer simultaneously and painlessly!
- The PORT REF™ has no switches or buttons! To use the mouse, just press its button. To use the 2nd joystick, just press its fire button. It's that easy!

ATARI, ST, STE, and TT are all trademarks or registered trademarks of Atari Corporation. Commodore and Amiga are trademarks or registered trademarks of Commodore Business Machines Inc.

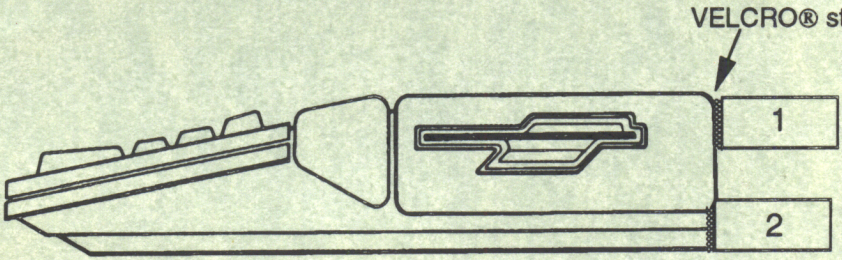
INSTRUCTIONS



*NOTE: Amiga owners plug the Port Ref into port 1 at the rear of the machine.



Plug in your secondary device here (usually this would be your 2nd joystick)
Port Ref™
Plug in your primary device here (the one you want in control at startup -- usually the mouse)
Port Ref™ Cable
1st plugs in as usual



VELCRO® strip allows you to attach the Port Ref™ in position 1 if there are modem or printer cables present (the Port Ref™ will rest on top of them) or, in position 2 if no such cables are present.

WARRANTY

Ninety (90) day warranty on all parts and labour from date or original purchase.

Conditions:

Registration: The attached Registration Card must be sent within fifteen (15) days of original purchase at retail.

Unauthorized Repair/Abuse: The unit must not have been altered, modified, repaired or serviced by anyone other than Eleven Engineering.
